New Year, New Look

*Change is the law of life.
And those who look only
to the past or present are
certain to miss the future.*

President John F.
Kennedy

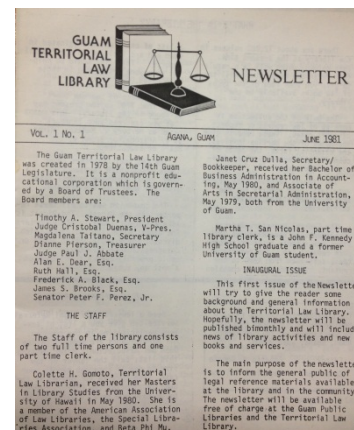

The first law library building.

In 1978, the Guam Territorial Law Library was established with the enactment of Public Law 14-155. A year later, construction began and the first Guam Law Library was born. The library building still sits on the same location on San Ramon Street, behind the Judiciary of Guam complex.

Over the last 35 years, the changes, both outside and inside the library, have been dramatic.

During the last several months especially, there have been changes to the staff and leadership, and new implementation of

new policies. But it was not a matter of change simply for the sake of change.

With guidance from the Board of Trustees, we have been offering more resources and new programs for our patrons.

We anticipate even more improvements in 2013, starting with a fresh look for our website, www.guamlawlibrary.org. We also hope you enjoy

the newsletter (although it is a bit late this month). Soon, our energy efficiency retrofit projects will be completed, and patrons will benefit from a new lighting and a/c system. We also plan to hold more CLE events throughout the year.

We hope you will join us this year as we celebrate 35 years of service to the legal community and the public.

Board of Trustees

Since 1979, there have been more than 50 members who served on the Board of Trustees of the Guam Law Library, formerly the Guam Territorial Law Library.

The Board of Trustees was established by statute, and is charged with governance of the Law Library, a nonprofit educational corporation.

Although by statute, the law librarian serves as the administrative head of the law library and reports to the Board of Trustees, from 1997 to 2008, the law library lacked a sitting law librarian. For eleven years, the sitting Trustees themselves played an active role in day-to-day library operations.

Since 2008, the Compiler of Laws has served as the Executive Director/ Librarian of the Guam Law Library, and the Office of the Compiler of Laws is now located in the law library facility.

- Chief Justice of Guam (1 trustee)
- Chief Judge of the District Court of Guam (1 trustee)
- Presiding Judge of the Superior Court of Guam (1 trustee)
- Judicial Council of Guam (1 trustee)
- Chairman of the Committee on the Judiciary (1 trustee)
- Governor of Guam (1 trustee)
- President of the Guam Bar Association (2 trustees)

The corporation is organized and shall be operated for the purpose of establishing and maintaining a law library.

Sweet e-Freedom

Turns out there are hundreds of legal and general productivity websites in cyberland just waiting to be discovered and used—all free of charge! The key is knowing which sites are junk and which are golden. Following are some productivity and legal websites that I frequently use.

- <https://join.me>

Join.me allows up to 250 people to be in on the same discussion at the same time (for free) and is compatible with both Windows- and Mac-based systems. Options available to participants include listening in on conversations via telephone, conducting Q&A sessions, and sharing control.

- www.yousendit.com/compare-plans

How many times have you spent hours creating a presentation only to not be able to send the handouts via email because of file size restrictions? This happens to me all the time. But with YouSendit, you can send files up to 40 times larger than with standard email. File size is a problem no more as you can send files upward of a gigabyte in size and know (not just hope) it was received on the other end.

- www.timebridge.com

Most people I know in business have outlook accounts at work and home, a smart phone, another phone somewhere, a Blackberry, a calendar on their computer, a paper desk calendar, [and] another paper calendar hanging on the wall in their kitchen. TimeBridge takes all of those dates and keeps them organized in one central place so you won't be running all over the place the next time you have a deadline to meet or a meeting to schedule, and it won't break your budget because TimeBridge does it all for free.

- www.zamzar.com

The problem with cyberspace these days is that there are so many different file formats. You've got bmp, dwg, emf, eps, gif, ico, jpg, pcx, png, tga, tiff, wbmp, webp, doc, and txt, not to mention the hundreds more that no mere mortal can keep track of. Zamzar is another free service that can convert any image, document, or video file for free. Simply identify the file you wish to convert, select the desired conversion format, enter your email address, and click "convert" to have the converted file emailed to your inbox. Is that easy or what?! Can I get an amen?!
